Featured Gig

Hot Tonight

Lead Techno DJ - Neon Jungle Night

The Electric Cellar, Brooklyn Tonight, 11:00 PM - 04:00 AM

FIXED PAYOUT
\$850.00

About this Gig

We are looking for a heavy-hitting Techno DJ to headline our Neon Jungle flagship event. The venue will be transformed into a bioluminescent subterranean oasis, and we need a soundscape to match. Expect a high-energy crowd of over 400 people.

The set should start driving and dark, evolving into peak-time industrial techno with acid influences. You will be supported by two local openers who will set the tone from 10:00 PM. High technical proficiency and the ability to read a room are paramount.

- 5-hour peak time set (11 PM - 4 AM)
- Void Acoustics sound system
- Professional lighting and VJ support provided
- Drink tickets and green room access included

Attire & Appearance

Standard: All black semi-formal. No visible corporate branding.

Theme: Neon accents allowed but not required. Industrial aesthetic preferred.

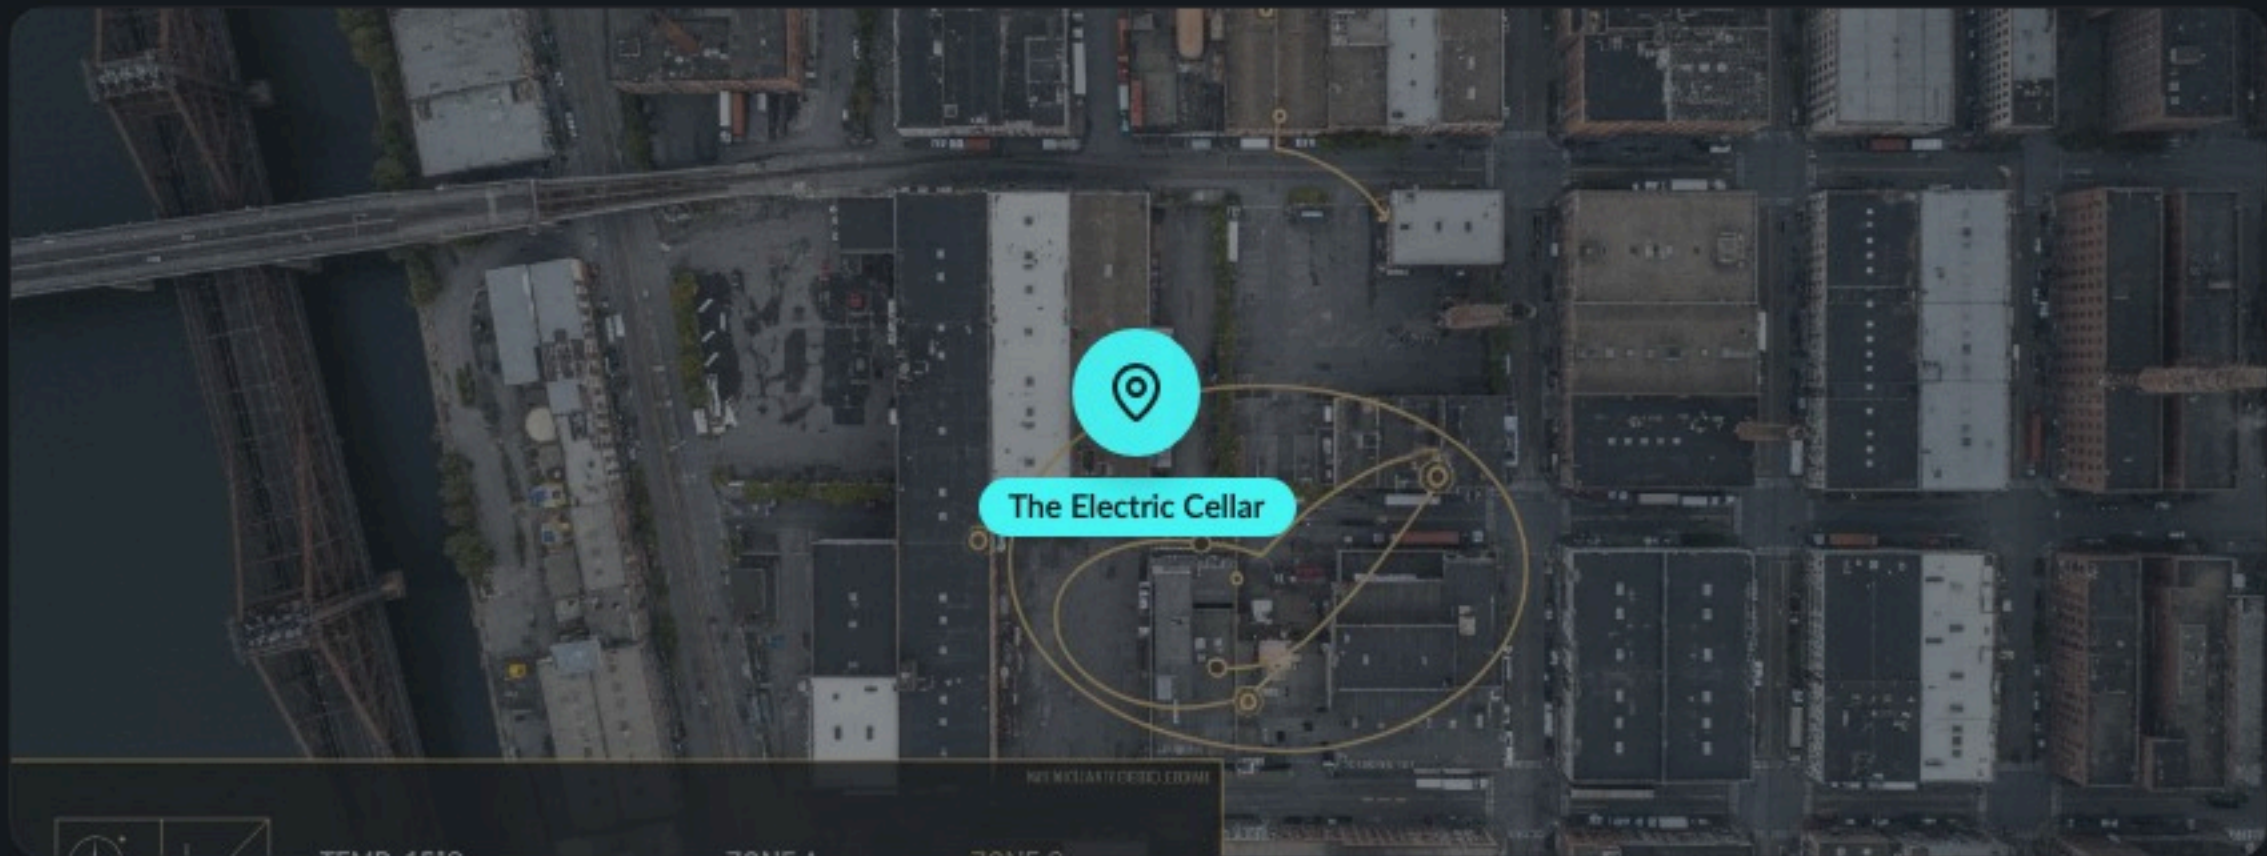

Equipment & Technical

Provided: CDJ-3000s (x4), DJM-V10, Booth Monitoring (Void Acoustics).

Required: Headphones, USB sticks (formatted FAT32/rekordbox), and own laptop stand if needed.
